CS

Dear Mrs Saunders,

Thank you for your letter of the 11th April informing me that I may attend the meeting on the 21st April. Other commitments preclude my being present.

I would, however, like to reiterate my support for the application which, by allowing a young local family to live locally, would strengthen the social fabric of the neighbourhood without any aesthetic or environmental costs for the area. The proposed dwelling represents a tiny expansion of an existing settlement which is part of Gosmore village.

Please accept my thanks for the exemplary way in which you acknowledged my initial communication and have provided me with all the relevant information. Would that all authorities, public and private, maintained your high standards in these regards.

Yours sincerely
