Dear Sir/Madam,

with regard to the retrospective application for planning to a hut at Trig Point to create 5 Bed + Breakfast rooms I would like to say that "as the owner of the adjacent property I have no objection to the traditional holiday weekly letting of these huts, but strongly object to anything which could lead to a departure from this i.e. permanent letting or as the first moves to create a housing estate."

Furthermore I would like to know if these huts are subject to the same stringent hygiene, fire and drainage checks to which the rest of us are subjected.
