

## Unibollard

The side lights are 7 watt low energy and are diffused downwards to provide lighting over the services.

The unibollard will be installed as a two, three or four way distribution box depending on the pitch configuration.

## Lighting for sleepers at low level to the front of the caravan.

Dar SAL5044 Salcombe 1 light large round Stainless Steel exterior wall bracket. Diameter: 250mm, Projection: 130mm. Requires: 1x 100w ES GLS lamp. Lamp not included. **IP44** rated! This fitting has a 3 year guarantee against corrosion (this guarantee will not apply to any products if installed in areas of salty or acidic atmospheric conditions.)

The lighting will switch on and off with a photocell and only when a caravan is connected to a hook up

Takes the normal household low energy lamps ranging from 7 watt upwards.
