

## Applications for Minor Works

For applications for small-scale works of a minor nature a lesser amount of information may be required within a Heritage Statement to understand the impact of the proposed works on the significance of a heritage asset. Examples where a reduced amount of information is required could include the erection of a satellite dish on a Listed Building or within a Conservation Area; the replacement of windows or doors on a non-Listed Building within a Conservation Area; or the replacement of a modern fireplace with a more traditional design in a Listed Building.

In these cases applicants may prefer to submit a Heritage Statement in a table format that incorporates the following headings:

What is significant about the heritage asset?	What works are proposed?	What impact do the works have on the part of the heritage asset affected?	How has the impact of the proposals been minimised?
<p>Cloughton vilage was designated a conversation area in 1977 as an area of "architectural or special historic interest which is desirable to preserve or enhance"</p> <p>Main objectice</p> <ul style="list-style-type: none"> <li>•to protect the open spaces</li> <li>•prevent the sub division of properties</li> <li>•prevent in-fill development</li> <li>•maintain the look and feel of new development with the use of contextual stonework etc to uphold the local distinctiveness of the environment</li> </ul>	<p>Instalation of air source heat exchange unit in non visible area of garden (dimensions supplied in extra document)</p> <div style="border: 1px solid black; padding: 5px; width: fit-content; margin: 10px auto;"> <p style="text-align: center;">15 OCT 2013 NYMNP/PA</p> </div>	<p>Minimal to none.</p> <p>The unit would not be visible to the general public. as there are physical and natural barrioters to the line of sight. The unit is also to be sited at least 90 metres from nearest public access or rights of way</p> <p>Specifically chosen for its low noise but also sited 40-50 metres from our closest neighbour, with physical boundry of three high (3 metre ish) stone walls between the unit and them</p> <p>Would have noise emission lower than passing traffic a quarter mile away</p>	<p>Impact minimised by choosing a site that has no visual impact on the surrounding environment and using the most modern low noise unit available for this catagory.</p>

Please note that it is the applicant's responsibility to submit sufficient information with their application to understand the impact of the proposals on the significance of any heritage assets affected. If you are in any doubt about the extent of information that is required and to avoid delays in validating your application please contact the relevant Officers to discuss this prior to submission.
