CONCRETED IN & RIGHT HAND FIXED TO
BUILDING, HIDDEN BEHIND PIPES AND
OPENING INWARDS

Beacholme

Existing layout of bins store to left of the front door.

Proposed gates would be T&G 25mm softwood painted to match wall. Opening inwards so the posts can be hidden behind the two cast iron pipes.

The tops rounded to disguise the bins without looking too high and also to mimic the shape of the porch doors.

If you feel there should be gaps between the boarding then please advise.
