

APPENDIX 2.1
POTENTIAL CUMULATIVE SCHEMES PROVIDED BY
NYMNP AND NYCC

Appendix 2.1

The table below provides the list of potential cumulative schemes provided by NYMNPA and NYCC scoped out of the EIA.

Scheme	Justification for Scoping Out of Cumulative Effects Assessment
The gas transmission line between Ebberston Moor and the proposed gas processing plant at Thornton le Dale (part of Moorland Energy's proposed development), reference NYM/2010/0262/EIA, for which approval was granted on appeal on 26 June 2012;	The proposed Development seeks to replace this scheme, the two projects cannot both proceed and therefore cumulative effects have not been considered.
The rebuilding of the 66kv power line from Thornton le Dale to Whitby by Northern Powergrid – this scheme is described in their business plan and supported by Offgen and, although works to upgrade the more southerly section of the line have already taken place, the northern section is still to be completed.	Unlikely to result in significant cumulative effects with the Development. Southern part of the scheme already complete.
The proposed Third Energy gas transmission pipeline from Ebberston/Wykeham gas field to Knapton Power Station; this is a 'straddling' planning application submitted to the National Park Authority and North Yorkshire County Council. The application to this Authority, reference NYM/2013/0593/EIA, was approved in December 2013 and we understand that NYCC is due to consider its application on 25 March 2014.	The proposed Development seeks to replace this scheme, the two projects cannot both proceed and therefore cumulative effects have not been considered.
A potential gas transmission pipeline from Westerdale to the Kirkleatham/Wilton area if the Westerdale gas borehole proves economic. This proposal is at pre-application stage but was mentioned in the borehole planning application submitted to the Authority, reference NYM/2012/0329/FL.	Due to the distance from this scheme to the Site it is considered that significant cumulative effects are unlikely.
14/00426/MOUTE (new 2,850 sq m livestock market, 6,010 sq m agricultural business centre, and a new 19,040 sq m business park including premises for The Ginger Pig plus associated development to a site adjacent to Eden Camp, Edenhuse Road, Old Malton)	Scoped out due to distance from the Site and nature of development. Significant cumulative effects are unlikely.
14/00427/MOUTE (c.227 dwellings plus associated development, The Showfield, Malton)	Scoped out due to distance from the Site and nature of development. Significant cumulative effects are unlikely.
14/00428/MOUTE (c.35 dwellings plus associated development, land south of Westgate, Old Malton)	Scoped out due to distance from the Site and nature of development. Significant cumulative effects are unlikely.
14/00429/MOUTE (c. affordable 45 dwellings, land at Rainbow Lane, Malton)	Scoped out due to distance from the Site and nature of development. Significant cumulative
