1 Foul Sewage	12. Assessment of Flood Risk
Please state how foul sewage is to be disposed of: Mains sewer Cess pit	Is the site within an area at risk of flooding? (Refer to the Environment Agency's Flood Map showing flood zones 2 and 3 an consult Environment Agency standing advice and your local planning authority requirements for information as necessary.)
Septic tank Other	Yes No
Package treatment plant	If Yes, you will need to submit a Flood Risk Assessment to consider the risk to the proposed site.
Are you proposing to connect to the existing drainage system? Yes No	is your proposal within 20 metres of a watercourse (e.g. river, stream or beck)? Yes X No
If Yes, please include the details of the existing system on the application drawings and state references for the plan(s)/drawing(s):	Will the proposal increase the flood risk elsewhere? Yes X No
NVMANTA	How will surface water be disposed of?
2 4 MAR 2014	Sustainable drainage system Existing watercourse
	Soakaway Pond/lake
	Main sewer
13. Biodiversity and Geological Conservation	14. Existing Use
To assist in answering the following questions refer to the guidance	Please describe the current use of the site:
notes for further information on when there is a reasonable likelihood that any important biodiversity or geological	AGRICULTURAL LAND
conservation features may be present or nearby and whether	
they are likely to be affected by your proposals. Having referred to the guidance notes, is there a reasonable	
likelihood of the following being affected adversely or conserved	Is the site currently vacant? Yes No
and enhanced within the application site, or on land adjacent to or near the application site?	If Yes, please describe the last use of the site:
a) Protected and priority species:	CROPS,
Yes, on the development site	
Yes, on land adjacent to or near the proposed development	
⋈ No	When did this use end (if known)? DD/MM/YYYY 23-8-2013
n) Designated sites, Important habitats or other biodiversity eatures:	(date where known may be approximate)
Yes, on the development site	Does the proposal involve any of the following? If yes, you will need to submit an appropriate contamination assessment with your application.
Yes, on land adjacent to or near the proposed development No	Land which is known to be contaminated? Yes No
) Features of geological conservation importance:	Land where contamination is suspected for all or part of the site? Yes X No
Yes, on the development site	A proposed use that would
Yes, on land adjacent to or near the proposed development No	be particularly vulnerable to the presence of contamination? Yes No
5. Trees and Hedges	
re there trees or hedges on the	16. Trade Effluent Does the proposal involve the need to
oposed development site? Yes No	dispose of trade effluents or waste? Yes X No
oposed development site that could influence the evelopment or might be important as part	If Yes, please describe the nature, volume and means of disposal of trade effluents or waste
Yes in local landscape character? Yes to either or both of the above, you may need to provide a full see Survey, at the discretion of your local planning authority. If a see Survey is required, this and the accompanying plan should be bmitted alongside your application. Your local planning	
thority should make clear on its website what the survey should ntain, in accordance with the current 'BS5837: Trees in relation to sign, demolition and construction - Recommendations'.
