About Us Garage Doors Front Doors Build Your Door Find Stockist/Installer Support Brochure

Sectional Doors

Garador Sectional doors are the best engineered garage door on the market, and a 42mm thick double skin steel section that is evenly filled with CFC-free PU foam; single skinned for a competitive price advantage.

A sectional garage door is made up of separate sections rather than a single panel for wider vehicles such as 4x4s and MPVs.

Garador sectional garage doors feature sturdy rubber weather seals on all sides of these doors are the discerning buyer's choice.

- Silkgrain Designs
- Timber Effect Designs
- Woodgrain Georgian Designs
- Woodgrain Linear Designs

AMENDED

Notes

Hi Ms Teasdale,

Having studied the high costs of your last proposal I will have to revert to a more traditional sectional garage door like the one shown above.

It can be fitted with small glass windows to bring in light, please confirm if this is likely to be accepted before I progress further.
