Miss Caroline Bell
Planning Administration Officer
NYMNPA
The Old Vicarage
Bondgate, Helmsley
YO62 5BP

Dear Miss Bell,

In response to your letter ref: NYM/2014/0561/INVMI dated August 13, 2014.

I note that the description of works has been altered from my original submission, and for the record wish to state the following;

There are no alterations to the existing brick building, nor extension of general purpose building. Creation of hard standing, and retention of bund, stand as described.

The works I wish to execute are:

- a) replacement of roof on existing building; the walls are intact, but reduced in height for safety; the collapsed roof has been removed for the same reason.
- b) replacement of flat roof, on existing building, with pitched roof for better visual appearance on the landscape.

In response to your queries:

- 1) Documents signed and returned.
- 2) Material for the 'hard standing' is to be semi-permeable brick and tile rubble, soil and grass seed.
- 3) I have retained the Supporting Agricultural Information form pending further information and advice, whether this is required in this circumstance; ie. Repair not Erection of buildings.

Yours sincerely,

Nigel P. Sutterby
