Mr M. Hill, Development Control Manager  
North York Moors National Park Authority  
The Old Vicarage  
Bondgate  
Helmsley  
YO62 5BP

Dear Mr Hill,

**Planning Application Number: NYM/2010/0262/EIA**

**Proposal by Moorland Energy Limited to construct a producing gas well, pipeline and processing plant on the boundary of the National Park.**

As a visitor to the Thornton-le-Dale area, I was shocked to discover that the above company wishes to construct a gas well and processing plant right on the doorstep of the North York Moors National Park.

Please don't let these plans go ahead!

I have chosen to visit the area because of its natural beauty and tranquillity; such a development would be greatly out of character with the locality, and would most certainly make me think twice about returning to visit this area.

I also think  
I think it should be located in an area well away  
from the national park as not to put tourists off visiting the area.

Yours sincerely

County Hall  
Northallerton  
DL7 8AH

Dear Mr Convery,

**Planning Application Number: NY/2010/0159/ENV**

**Proposal by Moorland Energy Limited to construct a pipeline to and gas processing facility at Hurrell Lane, Thornton-le-Dale**

Please, please do not allow this development to go ahead.

As a local resident I am appalled by the suggestion that such an industrial monstrosity should be foisted upon us. The plant will produce odour, noise and light pollution, and additional hazards of heavy goods haulage. All of these will be greatly magnified in the construction stage, when dust will also be a major problem.

I am also greatly concerned by the safety and security hazards presented by a high pressure gas installation like this, and by the dangerous materials that will need transporting to and from the site.

**Proposal by Moorland Energy Limited to construct a producing gas well,  
pipeline and processing plant on the boundary of the National Park.**

Dear Mr. Convery & Mr. Hill,

As a visitor to the Thornton-le-Dale area, I am strongly objecting to the above planning proposal. I have chosen to visit the area because of its natural beauty and tranquillity. I enjoy the traditional, unspoilt character of this beautiful National Parks village and this includes the footpaths and bridleways accessed from its centre.

Such a development would be greatly out of character with the locality, and would most certainly make me think twice about returning to visit this area. I urge you to protect this National Parks village including all of its surrounding recreational amenities.

I also think

there must be a more suitable site than the National Park, which should be sacrosanct for the peace, beauty and natural delight that we find here. Please re-consider carefully

Yours sincerely

Objection to planning proposal Ref: **NY/2010/0159/ENV**

Dear Mr Convery,

As a horse rider and walker, I value the network of local bridleways in the Thornton-le-Dale area and I am writing to object to this proposal. The Southern bridleways and footpaths down Hurrell Lane give access to Wilton, Allerston and the Low Marishes.

The presence of a Gas Processing plant will adversely affect this area –

- Noise
- Smell
- Lighting
- Landscape

And will restrict the recreational amenity of the village.

I also think that

this is an area of outstanding

beauty - you cannot be serious with this monstrosity here!!

Yours sincerely,

**Objection to planning proposals**

**Ref: NY/2010/0159/ENV And NYM/2010/0262/EIA**

**Proposal by Moorland Energy Limited to construct a producing gas well,  
pipeline and processing plant on the boundary of the National Park.**

Dear Mr. Convery & Mr. Hill,

As a visitor to the Thornton-le-Dale area, I am strongly objecting to the above planning proposal. I have chosen to visit the area because of its natural beauty and tranquillity. I enjoy the traditional, unspoilt character of this beautiful National Parks village and this includes the footpaths and bridleways accessed from its centre.

Such a development would be greatly out of character with the locality, and would most certainly make me think twice about returning to visit this area. I urge you to protect this National Parks village including all of its surrounding recreational amenities.

I also think

Why would you want to destroy such a beautiful  
place, I think it would be a disaster.

Yours sincerely

I have chosen to visit the area because of its natural beauty and tranquillity; such a development would be greatly out of character with the locality, and would most certainly make me think twice about returning to visit this area.

I also think

How could you even consider this location. We + many friends have visited Thornton le Dale for many years very frequently and spend a large amount of money with local businesses. Tourism is the main income for this area of outstanding natural beauty. If the gas plant went ahead it would ruin the local businesses and a large group of people who visit this area, not one would want to visit with this disgusting pollution of the landscape. PLEASE PLEASE PLEASE DONOT LET THIS

Yours sincerely

AWFUL PLANT GO AHEAD. IT WOULD BE A DISASTER. THE AREA WOULD BE COMPLETELY RUINED AND WILL BE MOST DEFINITELY AVOIDED BY TOURISTS

**Proposal by Moorland Energy Limited to construct a producing gas well, pipeline and processing plant on the boundary of the National Park.**

As a visitor to the Thornton-le-Dale area, I was shocked to discover that the above company wishes to construct a gas well and processing plant right on the doorstep of the North York Moors National Park.

Please don't let these plans go ahead!

I have chosen to visit the area because of its natural beauty and tranquillity; such a development would be greatly out of character with the locality, and would most certainly make me think twice about returning to visit this area.

I also think

The residents at the Residential / Nursing Home on  
Hurrell Lane deserve more consideration. Having spent  
all our holidays in Thornton-le-Dale (two or three times a year  
for almost 20 years at the converted railway station) we  
frequently walk in that area, it is so peaceful, with the  
fields rolling into the distance and cattle in the fields,  
it would be a disaster for the area to even think of  
building such a monstrosity in such a tranquil spot.  
Yours sincerely

P.S. This is not NIMBYism,  
as can be seen by our address!!

Dear Mr Hill,

**Planning Application Number: NYM/2010/0262/EIA**

**Proposal by Moorland Energy Limited to construct a producing gas well, pipeline and processing plant on the boundary of the National Park.**

As a visitor to the Thornton-le-Dale area, I was shocked to discover that the above company wishes to construct a gas well and processing plant right on the doorstep of the North York Moors National Park.

Please don't let these plans go ahead!

I have chosen to visit the area because of its natural beauty and tranquillity; such a development would be greatly out of character with the locality, and would most certainly make me think twice about returning to visit this area.

I also think it would damage the living of a great many local people who give a good service to tourists for accomodation, food etc. I have been coming to Thornton le Dale since I was a small girl - initially on school coach trips and T.W.G. bus trips with my grandmother, followed by several visits per year with my family, in all seasons. It is such a picturesque village, and should remain so.

Yours sincerely

THE PROPOSED DEVELOPMENT WILL BE SITUATED IN THE LOWER PART OF THE VALE OF PICKERING, AND WILL BE SEEN FROM THE SURROUNDING VILLAGES. THIS WILL RUIN A BEAUTIFUL RURAL AREA WHICH TOURISTS WILL STOP VISITING, AND CREATE A GREAT LOSS TO AN IMPORTANT INDUSTRY. WE PAY TO SEE UNSPOILT COUNTRYSIDE, BREATHE FRESH AIR AND GET AWAY FROM INDUSTRIAL POLLUTION. IS THIS REALLY THE WAY FORWARD FOR THE VALE OF PICKERING,??!

Yours sincerely

WE DO NOT THINK SO.

Objection to planning proposal Ref: **NY/2010/0159/ENV**

Dear Mr Convery,

As a horse rider and walker, I value the network of local bridleways in the Thornton-le-Dale area and I am writing to object to this proposal. The Southern bridleways and footpaths down Hurrell Lane give access to Wilton, Allerston and the Low Marishes.

The presence of a Gas Processing plant will adversely affect this area –

- Noise
- Smell
- Lighting
- Landscape

And will restrict the recreational amenity of the village.

I also think that

As a visitor to the Thornton-le-Dale area, I was shocked to discover that the above company wishes to construct a gas well and processing plant right on the doorstep of the North York Moors National Park.

Please don't let these plans go ahead!

I have chosen to visit the area because of its natural beauty and tranquillity; such a development would be greatly out of character with the locality, and would most certainly make me think twice about returning to visit this area.

I also think

if this goes ahead there may  
be many more applications for  
similar 'projects' thus spoiling  
this beautiful area

Yours sincerely
