The above named Authority being the Planning Authority for the purposes of your application registered 26 August 2011, in respect of **erection of a 50 kW wind turbine (maximum height to blade tip 34.2 metres)** at **Grange Farm, Staintondale** have considered your said application and have **refused** permission for the proposed development for the following reason:

1. The proposed wind turbine by reason of its height, nature and siting in an isolated location in open countryside would constitute a visually obtrusive structure in the open countryside which would be seriously harmful to the character and appearance of this part of the National Park. As such the proposal would be contrary to NYM Core Policy D which seeks to ensure that renewable energy installations are of a location, scale and design appropriate to the locality and to NYM Core Policy A which seeks to ensure that new development conserves and enhances and does not harm the Parks special qualities.

Director of Planning
