Dear Hillary,

I visited some residents close to this application yesterday as they had some concerns regarding the proposal. I have to say that I do know the area very well as it was on my regular horse riding/dog walking track.

At the moment the fields lead down to the river which is a great asset for grazing stock especially in a winters like last year and the year before when leading of water and breaking of ice was a very difficult task. I do understand the need to keep stock and tourists distanced from each other, but it would seem a shame to block these fields from running water.

I fully support the need to attract visitors to our area by the extending and upgrading of tracks, but they do seem to be creeping ever closer to the residents of Dalby, who have often moved to such locations for a quiet life.

Janet
