**Subject:** Objection to Planning application ref NYM/2011/0653/FL.

Dear Sir/Madam,

I object to the above application that has been submitted with regard to the building of a new road within the Dalby forest area.

Having viewed the application I feel that the applicants have not given sufficient reason for the requirement a road of this size or in its proposed form.

That area or Dalby is served by two parallel roads approximately 200 meters apart. If there was sufficient argument to join said roads I believe that it should be done in a sympathetic manner.

The proposed straight line is at odds with the rolling nature of the field system and would appear to be far larger than required for the stated purposes.

Another application submitted to yourselves ( ref 0222 ) is described as a road and is of a similar width!

I would ask that the application be refused out of hand due to the scarring impact it would have on this beautiful area and the unnecessary potential impact to wildlife.

Yours Sincerely

Mr S M Wilkin

A accept that the content of my mail can be published as part of the public process but ask that you as a public body ensure my address be sanitised.
