Your Ref. NYM/2012/0059/FL.

Dear MRS. Bastow,

in reference to the application for construction of a double garage attached to dwelling and creation of vehicular access at 5, Mill View, How Hawsker:

Thank you for your letter dated 12th March 2012 regarding the Planning Committee meeting on the 22nd March 2012 at 10.00 am, I would very much like to come but I suffer with very bad panic attacks so I would not be able to attend. Sorry.

My other concerns are why they are putting a passage that runs down the inside of the garage and also having 3 doors for the garage, I understand they need parking for their car but why a double garage that is I think too big for that plot why not just a drive, to keep it in line with the other houses on Mill View.

Yours faithfully
