

MRS. J. Belchamber.  
3, Mill Lane.

Low Hawsker.  
North Yorkshire  
YO22-4LT.

Dear MRS. J. Baston,

I am writing in regards to a Planning application number NYM/2012/0059/FL Site 5, Mill View Low Hawsker, I would like to put a objection in regarding the Plans. my concerns are.

1. The height of the Double Garage with the view to taking a picture view away that cannot be replaced when gone, by myself and many more people that stop to look at it including the many ramblers we have in hawsker
2. overbuilding on the Plot and looking just like a block with it going right out to the boundary.
3. once the garage is built my concern is also it being turned into further living accommodation and then later on a further extension above the Garage my thoughts being on this as they are going to put 2 windows at the rear of the garage why would they want two windows in a garage.

4. The reason I moved to Hawsker and the house I bought was.

1. The Views where unspoilt and a picture to anyone we sit for hours in Summer out front looking over all the fields and the Deers playing.
2. Hawsker being a lovely quiet village not over built with houses, and extensions and garages.
3. I would not like to be sat out Front of my lounge and all I see is this garage and I am sure alot of other people won't to.
4. I also feel that it will open the gates for other properties on mill view to follow suit and add extensions to loeing all views then it will just look like any other over built street, we should try to keep our views, I welcome anyone from the Planning Dept to come and have a look from my living room window to know what I am talking about.

yours Sincerely

NYMNP
