

Workshop Log Lap Garden Shed

The Workshop is specially designed as a garden workspace while still leaving plenty of room for storage, making this shed ideal for people keen on gardening or DIY. This sturdy and hard-wearing workshop provides the advantages of wide opening doors for ea

Key Features

- Superior 16mm finish Log Lap Cladding :63x32mm Heavy Duty framing
- Windows to one side inc 1 FREE OPENER
- Large Solid Double Doors For Easy Access
- Higher Eaves and Ridge Allowing For More Head Room
- Tongue & Groove Floor & Roof (NOT the cheaper OSB Board)

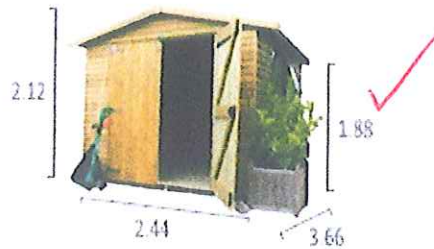

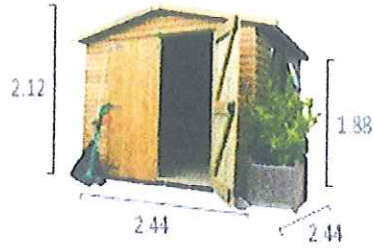

The Workshop is specially designed as a garden workspace while still leaving plenty of room for storage, making this shed ideal for people keen on gardening or DIY. This sturdy and hard-wearing workshop provides the advantages of wide opening doors for easy access, joiner made windows to let in plenty of sunlight along with a height not available with many garden buildings.

Our high quality workshop is available in a wide range of sizes to suit your requirements and comes in Log Lap cladding.

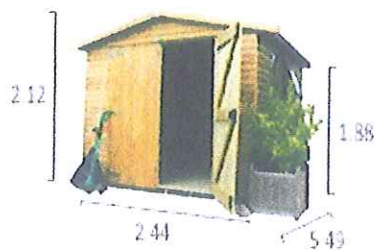

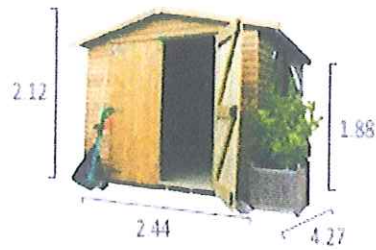

To protect your workshop this product comes treated in a red cedar base treatment as standard, alternatively, to keep your shed in top condition you can choose our optional pressure treatment as pictured.
