Subject: planning for 2 mill lane Iburndale, yo22 5du ref nym/2012/0333/fl

Hi.
My name is Rachel, i live at number 6 Mill lane, iburndale, sleights, Number 2 Mill Lane is directly at the rear of my house and Mr Arnott has already started laying electric lines and water to the proposed site for his so called garage and workshop along with heavy machinery already getting the area ready and blocking off access to the rest of Mill Lane, He has destroyed trees from my boundary line and done work to the property which in my mind is not in keeping with the local area and natural beauty of the hamlet. The proposed plans are to the side of my property and i believe that the hamlet is already over built on, we all live on top of each other as it is, but saying that it is so quiet and peacefull that was until works started on number 2, i have a feeling that Mr Arnott in the future would use this garage/workshop as a residential dwelling and this being the reason he wants it placed in the proposed area, i fear that noise and overbuilding would totally ruin such a stunning place. I strongly object to the building going ahead.

Kind Regards
Rachel Barker
