To Whom It May Concern,

I am writing on behalf of St. Heddas School, Egton Bridge. As a parent Governor I feel the need to reinforce the importance of ~~at~~ what a new school canteen would mean to the pupils, staff and to the wider local community.

St. Heddas is a traditional school with enthusiastic teachers, with an excellent reputation. The school has had a greater influx of pupils and numbers are growing, with your help and support in the approval of a new canteen this would provide a more spacious dining environment, making meal times more enjoyable. The current canteen is very dated, cold and damp. This would also make an excellent teaching and resource environment and one that would be productive for learning. The school runs afternoon cookery and gym clubs (music lessons) so would be excellent and extremely beneficial for any changes to take place.

This could also be utilised by the general

Parish as the school has worked hard with NYCC in creating a new Community Library. This would also be an asset to the Church St. Heddas and its congregation.

Many thanks for your consideration of this proposal.

Dear Sir / Madam,

I am writing to support the proposed building of a new school canteen at St. Heddas School, Egton Bridge.

As an ex-pupil of the school myself it is the same canteen now that was there when I was, 20+ years ago!! So it is probably time for modernisation.

I feel the extra space would be beneficial to my children, one having just started and two more to follow.

Also a community library would be

an excellent facility as there is
nothing like this in the area.

Yours faithfully.

Kate Braun
Parent.
