Dear Mr P Jones,

I write regarding the plans that have been put in for Chris Shardlow at Beacon Farm. I fully support the plans and have no objections against the plans at all. To me, the proposed plans will not affect any other village residents as it is well hidden away and out of view.

"Chris has lived in the village for the duration of his life and has worked on the premises from an early age. It would be great to see Chris gain independent accommodation and also remain in the village as this would add younger blood to the local community which is greatly needed. Chris now has a large input into the running of the business and for him to remain on site is key."

I use the village shop and also use the daily paper service that Beacon Farm offer. If this wasn't here then it would mean me driving into town every day. A little service like this means a great deal to many villagers.

Yours Faithfully,

NYMNP
