An appeal to the Planning Committee - North York Moors Planning department

I oppose The Park and Ride Scheme on the grounds of 'Green Belt encroachment' One has to ask why is a body so insistent about using this green belt land when there exists a number of other more suitable industrial & other sites outside of the National Park boundary on the outskirts of Whitby? What motivates a scheme that embodies spoiling and destroying what many visitors come to experience the North Moors National Park for? This is totally the wrong location for a car park, it is very visible and no amount of planting trees & shrubs will serve to adequately hide the development because it is on an elevated site that is very visible from the main Guisborough road & Castle Road. The cost is astronomical considering it will only provide very few usable car parking spaces & won't really help Whitby's alleged parking problems. The whole idea is absurd & will look totally out of place & ugly in this otherwise pleasant & rural location. If a Park & Ride is to be considered it needs to be outside of the National Park boundary & preferably on the Scarborough road side which is already industrialised with many new buildings & developments, Sainsburys & Homebase to name a few. Please do not grant permission for this development to proceed as I fear it will be to the detriment of The National Park, the visitors to the Park & residents alike. Thank you for taking my comments into consideration.
