Dear North Yorkshire County Council

Application Under Section 96A of the Town and Country Planning Act 1990 for non material amendment to planning approval NYM/2012/0757/EIA (transport statement refers) to allow: 1) Termination of bus route at Whitby Bus Station, 2) works to Flowergate/Brunswick Street to be completed before end of July 2014, 3) completion of terminal building before end of July 2014 at OS Field 3618 bounded by Guisborough Road A171 B1460 and Barkers Lane, Whitby

Thank you for your application validated 05 March 2014, regarding the above.

I am writing, on behalf of the National Park Authority, to advise you that the amendments outlined above and as shown on the submitted plans have been approved, subject to the following provision:

1. The changes to the substantive development hereby permitted shall be completed before the end of July 2014.
2. The development shall otherwise accord completely with the approved plans and imposed conditions of planning approval NYM/2012/0757/EIA.

Informative:

The proposed development lies within a coal mining area which may contain unrecorded mining related hazards. If any coal mining feature is encountered during development, this should be reported to The Coal Authority. Any intrusive activities which disturb or enter any coal seams, coal mine workings or coal mine entries (shafts and adits) requires the prior written permission of The Coal Authority. Property specific summary information on coal mining can be obtained from The Coal Authority's Property Search Service on 08457626848 or at www.groundstability.com

I trust that the above advice is of assistance but if you have any further queries, please do not hesitate to contact Mr M Hill again on the above number.

Yours sincerely

Mr C M France
Director of Planning
