20 OCT 2014

Dear Mrs Stragelway,

please find enclosed items that you have requested, I hope everything is now completed, as the last time I spoke to Mr Hair about this issue, he said that we would simply have to send a drawing of the internal layout, as everything had already been submitted, when we received planning permission on the 10<sup>th</sup> April 2013, so very surprised about the amount of things been requested.

I have lived in the National Park for 50 years and my children were born + have lived in the National Park all their lives.

We are applying for local letting dwelling, as the Annex is only for our family to use, and can not be sold separately to Bridgestones as it does not have a independent Electrical supply or a independent water supply. It is simply additional living accommodation for our family, as stated in our original Planning Permission, due to the lack of affordable housing in our location.

Yours Sincerely
