Dear Sir/Madam,

**NORTH YORKSHIRE COUNTY COUNCIL – BRIDGEWORKS PROGRAMME 2015/16
ELLERBECK NORTH BRIDGE, NEAR GOATHLAND MAINTENANCE WORKS
LISTED BUILDING CONSENT APPLICATION**

Jacobs UK Ltd has been commissioned by North Yorkshire County Council to prepare a scheme of maintenance works to Ellerbeck North Bridge which is programmed to commence in September 2015.

The bridge carries the A169 Pickering to Whitby road over Eller Beck. Ellerbeck North Bridge is Grade II-listed and lies within the North York Moors National Park and therefore falls under your jurisdiction. Please find enclosed for your consideration, therefore, an application for listed building consent for the proposed works with supporting documentation.

We have carried out ecology surveys at the bridge and discovered that bats are present in one of the parapet walls. The interim reports are submitted with this application. A third bat emergence survey (weather permitting) is planned for week beginning the 15th of June 2015 and after the third emergence survey a bat mitigation method statement will be produced and forwarded to yourselves. A survey for white-clawed crayfish will be carried out at the end of July and a mitigation method statement will be produced if required and forwarded to you. I have discussed the supplementary survey with your planning department today who confirmed they were happy to receive these during the application process.
