

Design and Access Statement

NV
23 JUN 2015

We have rebuilt our garden shed because it had become dangerous and beyond repair. The new structure was built by a local company, The Yorkshire Shed Company and is similar in appearance to the old one. We have used the same materials and the new shed is the same size as the old one. The new structure sits on the footprint of the old one.

We are attaching photographs of the new and old sheds with measurements.
