12. Foul Sewage	13. Assessment of Flood Risk							
Please state how foul sewage is to be disposed of: Mains sewer Cess pit	Is the site within an area at risk of flooding? (Refer to the Environment Agency's Flood Map showing flood zones 2 and and consult Environment Agency standing advice and y local							
Septic tank Other	planning authority requirements for information as necessary.) Yes No							
Package treatment plant Unknown	If Yes, you will need to submit a Flood Risk Assessment to consider the risk to the proposed site.							
Are you proposing to connect to the existing drainage system? Yes No	Is your proposal within 20 metres of a							
If Yes, please include the details of the existing system on the application drawings and state references for the plan(s)/drawing(s):	watercourse (e.g. river, stream or beck)? Will the proposal increase the flood risk elsewhere? Yes Unknow n							
pian(s)/urawing(s).	How will surface water be disposed of?							
	Sustainable drainage system Existing watercourse							
	✓ Soakaway Pond/lake							
	Main sewer Unknown							
14. Biodiversity and Geological Conservation	15. Existing Use							
Is there a reasonable likelihood of the following being affected	Please describe the current use of the site:							
adversely or conserved and enhanced within the application site, or on land adjacent to or near the application site?								
a) Protected and priority species:	Bike rental, servicing and shop							
Yes, on the development site								
Yes, on land adjacent to or near the proposed development	Is the site currently vacant? Yes No If Yes, please describe the last use of the site:							
No No	N/A							
b) Designated sites, important habitats or other biodiversity features:								
Yes, on the development site	When did this use end (if known)? DD/MM/YYYY							
Yes, on land adjacent to or near the proposed development	(date where known may be approximate)							
☐ No	Does the proposal involve any of the following:							
<u></u>	Land which is known to be contaminated? Yes You							
c) Features of geological conservation importance:	Land where contamination is suspected for all or part of the site? Yes No							
Yes, on the development site	A proposed use that would							
Yes, on land adjacent to or near the proposed development	be particularly vulnerable to the presence of contamination?							
No	If you have answered Yes to any of the above, you will need to submit an appropriate contamination assessment.							
16. Trees and Hedges	17. Trade Effluent							
Are there trees or hedges on the proposed development site? Yes No	Does the proposal involve the need to dispose of trade effluents or waste? Yes No							
And/or: Are there trees or hedges on land adjacent to the proposed development site that could influence the development or might be important as part of the local landscape character?	If Yes, please describe the nature, volume and means of disposal of trade effluents or waste							
If Yes to either or both of the above, you will need to provide a full Tree Survey, with accompanying plan before your application can be determined. Your Local Planning Authority should make clear on its website what the survey should contain, in accordance with the current 'BS5837: Trees in relation to construction - Recommendations'.
