Dear Mrs Bastow,

I am concerned on finding a recent Planning application Nym/2015/FL for a log cabin in National Park & more so as I have reason to believe that the applicant's underlying intentions of a development of some considerable size, noting that already trees have been destroyed making a larger area for the Quoc website - Keith Dobbin CEO newly appointed Hayburn Wood Lodges Scarborough - retreats in woodland setting.

I am sure that National Park Wardens are aware of this, but need to be assured that this initial plan will be turned down.

Yours sincerely  
Patricia Richardson
