3. Description of the Proposal					
Please describe the proposed development including any change of use:					
In 2009, planning permission was granted for the construction of a Dry Stone Wall Maze in the exact location as proposed in the application. The site was cleared of trees for construction, however, as it turns out, actual construction in the planning sense commenced after the 3 year planning permission period. We were under the assumption that clearing the site meant starting construction.  Now we would like to request planning permission again for the construction of a Dry Stone Wall Maze on a site which was previously forest. The Maze will not be visible from the road and once constructed, trees will be planted between the walls.					
Has the building, w	ork or change of use already started?	( Yes No		e state the date when g, work, or use started:	01/08/2011
