Dear Mr. Saunders,

I understand that the occupants of Roelhaven, Newlands Road, Cloughton are applying for permission to convert a stable into residential accommodation, I would imagine they had this in mind when this huge stable, which has satellite T.V, was erected! Their first attempt to convert was rightly turned down by the Parish Council.

I frequently go passed ~~to~~ ^{the} ~~house~~ with my husband, who as you know, is wheelchair bound. On several occasions I have had to by pass the front porch and go onto the road, as cars are blocking it in front of their huge, oversized gates. I can only get back onto the footpath several hundred yards further down the road, on the brow of a hill where as often as not another car is parked in the driveway. This is Brentwood! I dare not cross over ~~the road~~ it is too dangerous so ~~run the~~

risk of cars coming up behind,
often at high speed. This is the
only walk from my home where
I can push my husband to the
Lakes Hill duck pond and back,
everywhere else is too hilly.

I do hope you will take
this into consideration as another
entrance to Rockhaven properties
will only aggravated the situation.

Yours sincerely

NYMNPA
