

Members Update Sheet

15 February 2018

Item 3 NYM/2017/0859/FL

Parish – Previous comments remain unchanged

The applicant's agent has written in support of the proposal in relation to car parking and has advised as follows:

The suggested restricted car parking brought up by objectors is not an issue. At the moment I have just tried to work with minor alteration of the existing car park area, however given the amount of land on site we could provide substantially more spaces if required. Our client given his experience with the site and the business feels the scheme as drawn will be sufficient however if Officers or Members feel it appropriate further spaces could easily be created.
