

**Key:**

- 24 hours working  
7 days a week
- 7am - 7pm working  
7 days a week.  
During the period 1900 to 0700 hours excavated spoil from shaft and tunnel works would be tipped at designated locations on the screening mounds. The designated areas would be enclosed by surrounding spoil/landform, to prevent visibility of vehicle headlights or hazard warning lights in the external views. Crushing, compacting and final profiling of spoil tipped in the designated areas would take place during normal surface working hours (0700 to 1900).
- 7am - 7pm working, 7 days a week. No tipping of material to take place outside of these hours of working
